

California Dream Act FAQs

The California Dream Act is a combination of three bills, Assembly Bill (AB) 540, AB 130 and AB 131. Together, these bills allow undocumented and nonresident documented students who meet certain provisions to be treated the same as resident students. Together these are called the California Dream Act and they allow these students to pay the resident fees at public colleges and universities, apply for and receive private scholarships funded through public universities, state-administered financial aid, university grants, community college fee waivers and Cal Grants.

Q What is AB 540, and what does it have to do with the California Dream Act?

A AB 540, passed in 2001, allows students meeting all of the following criteria to pay the same tuition and fees as resident students at California public colleges and universities. The California Dream Act extended Cal Grant A & B Entitlement awards, Cal Grant C awards, institutional grants, and community college fee waivers to students that meet these same criteria. To receive CA Dream Act aid, AB 540 and AB 131 students must:

- Have attended a California high school for a minimum of three years
- Graduate from a California high school or pass the California High School Proficiency Exam (CHSPE) or get a General Equivalency Diploma (GED), also called General Educational Development test)
- Enroll in an accredited California institution of higher education
- In the case of students without legal immigration status, fill out an affidavit stating that they have filed or will file an application to legalize their immigration status as soon as they are eligible to do so
- To get a Cal Grant, they must also meet all other Cal Grant eligibility criteria

Q I saw that AB 540, AB 130, and AB 131 guarantee confidentiality, but what about my parents' information?

A CA Dream Act students without legal immigration status will be required to fill out the California Dream Act Application instead of the Free Application for Federal Student Aid (FAFSA).

- Like all other dependent Cal Grant applicants, CA Dream Act students will be required to submit parental income and asset information. The demographic information students will provide on the CA Dream Application is largely the same as the information that students have already supplied to their high schools and colleges
- There are no checks and matches between the CA Dream Act Application and any federal databases
- CA Dream Act students' and their parents' information is protected by the same privacy and information security laws and safeguards as all other Cal Grant applicants
